CONFERÊNCIA

Space and Time in Modern Cosmology

Neven Bilic
(PPGCosmo/DFIS, UFES)

Resumo:

After an introduction to theoretical and observational cosmology a few basic concepts will be discussed. Special attention will be devoted to the concepts of time and space in the context of creation, inflation, and current universe expansion. In that regard some new ideas will be briefly discussed such as the *braneworld* cosmology.

Dia: 18 de setembro de 2019 (quarta-feira)
